Compatible with products of other manufacturers

FIBARO Walli is compatible* with front plates of other manufacturers: GIRA - System 55**, Legrand - Celiane, Schneider - Odace. If you are attracted to the sockets you already have, equip them with an smart flush-mounted part and enjoy smart home features without having the front plate replaced.

*Adapter is required for proper installation. Check the specification.

**Check the specifications which devices from the series work with Walli.

USECASES

Have you forgot to turn off the light?
It's not a problem anymore.

You know best - leaving the house in a hurry and suddenly you can't remember if you had turned off the light and unplugged the iron? From now on, you can take a breath of relief because with Walli Switch and Outlet you remotely turn off the lights and equipment using the app.

Walli Switch

The lights in the living room are still on.

USE CASES

Adjust the lighting to the occasion

Different situations require different light intensity. In one you choose to work, one are perfect to watch a movie and other suit well a romantic dinner with the loved one.

With Walli Dimmer you can adjust the lighting to your occasion with just a single click.

USE CASES

Working with the system

Walli Outlet connected to FIBARO System cooperates with other devices in of the smart home environment. When the air sensor detects bad condition if the air, the air purifier connected to the Walli Outlet will start automatically. In order to keep the family and friends safe and healthy, everything happens by itself. Cool stuff, isn't it?

USE CASES

Control all roller shutters at once

Control multiple devices at once from one switch.
Unique combination of ease and versatility that
allow to link one roller shutter controller with all
roller blinds throughout the entire apartment.
Unbelievable!

USE CASES

Back to home of the future

Imagine that you have come home after a hard day and within just one click you close the entrance gate and the garage, turn on the heating of the garage and turn off the light where you don't want it on anymore. Sounds like a science fiction scenario but Walli simply makes it your everyday life.

USE CASES

A night in the glow... of Walli

Little explorers which are brave during the day often seem to fear of the darkness. With Walli, the darkness is no longer terrifying because the night road for travellers is indicated by a glowing LED ring. They will always find the way to their parents room or bed.

Manage the entire house with voice

Walli smart switches and outlets are fully compatible with the renowned Google Assistant and Amazon Alexa voice assistants. An easy and comfortable voice management of the entire home.

Be with your home wherever you are

The FIBARO Home Center mobile app allows you to manage smart switches and outlets with your smartphone, tablet or smartwatch. Keep everything under control like a boss.

Energy consumption under control

Have a deep insight into your home, analyse the energy consumption of your household appliances and optimize your expenses the way you always wanted to.

Ready when you are

Whether you are installing the complete Walli sockets and outlets series or only use the flush-mounted part, FIBARO qualified installer will do this for you in few moments. No unnecessary mess or extra costs.

Make a classy step into the future

FIBARO Walli series include classic non-intelligent switches and sockets to keep up the consistent aesthetics of your home interior. Pick them as you like and enjoy unique design and functionality.
