

Temperature and Humidity Sensor User Manual

Product Description

Entering the Network Configuration Mode

1. Power on the product.

Rotate the battery cover
counterclockwise to open it.

Install two AAA batteries.

2. Press and hold the button for 5s to restore the product to factory settings.

The signal icon will rapidly blink, and the product will automatically enter the network configuration mode once the factory settings have been restored.

Press and hold
the button for 5s.

- Press and hold the button for 5s to 10s to make the product enter the network configuration mode. When you press and hold the button for 5s, the signal icon rapidly blinks. Release the button to configure the network and wait about 20s for the product to enter the network configuration mode. During this process, the signal icon blinks (it may blink irregularly).
- After the product enters the network configuration mode, the signal icon will be steady on and the product will report its status. If the product fails to enter the network configuration mode, the signal icon is off.

Installation Instructions

Installation method 1: Use a 3M sticker to affix the product to the target position.

Installation method 2: Place the product on the support.

Technical Parameters

Wireless Technology	ZigBee
Working Voltage	3 V
Transmission Frequency	2.4 GHz
Working Temperature	-10°C to +55°C 0% to 99.9% RH
Undervoltage Alarm	Supported
Dimensions	φ61.2 mm x 23 mm

Toxic or Hazardous Substances or Elements of this Product

Component Name	Toxic or Hazardous Substances or Elements					
	Lead (Pb)	Mercury (Hg)	Cadmium (Cd)	Hexavalent chromium (Cr (VI))	Polybrominated biphenyls (PBBs)	Polybrominated diphenyl ethers (PBDEs)
LED	0	0	0	0	0	0
PCB	×	0	0	0	0	0
Cover and other components	×	0	0	0	0	0

This table complies with SJ/T 11364.

0: indicates that the toxic or hazardous substance amount contained in all homogeneous materials of a component does not exceed that stipulated in GB/T 26572.

X: indicates that the toxic or hazardous substance amount contained in at least one of the homogeneous materials of a component exceeds that stipulated in GB/T 26572.

Warranty Certificate

Warranty policy:

1. If the product has quality problems within 7 days of the payment date, you can apply for a refund based on the invoice price or to replace the product with one of the same model.
2. If the product has quality problems within 15 days of the payment date, you can apply to replace the product with one of the same model.
3. If the product has quality problems within 12 months of the payment date, you can apply to have the product repaired.

What is not covered under this warranty:

1. The product owner has no warranty certificate or the warranty service has expired.
2. Damage caused by improper use, maintenance, or storage
3. Damage caused by disassembly and repair without Tuya's authorization
4. Damage caused by force majeure
5. Normal discoloration and depreciation after the product has been used
