# How to pair Shelly BLU TRV with Shelly BLU H&T sensor

(Hoe Koppel je de Shelly BLU H&T sensor met de Shelly BLU TRV)

Before you start, make sure the Shelly BLU TRV is already paired with the Shelly BLU Gateway Gen3.
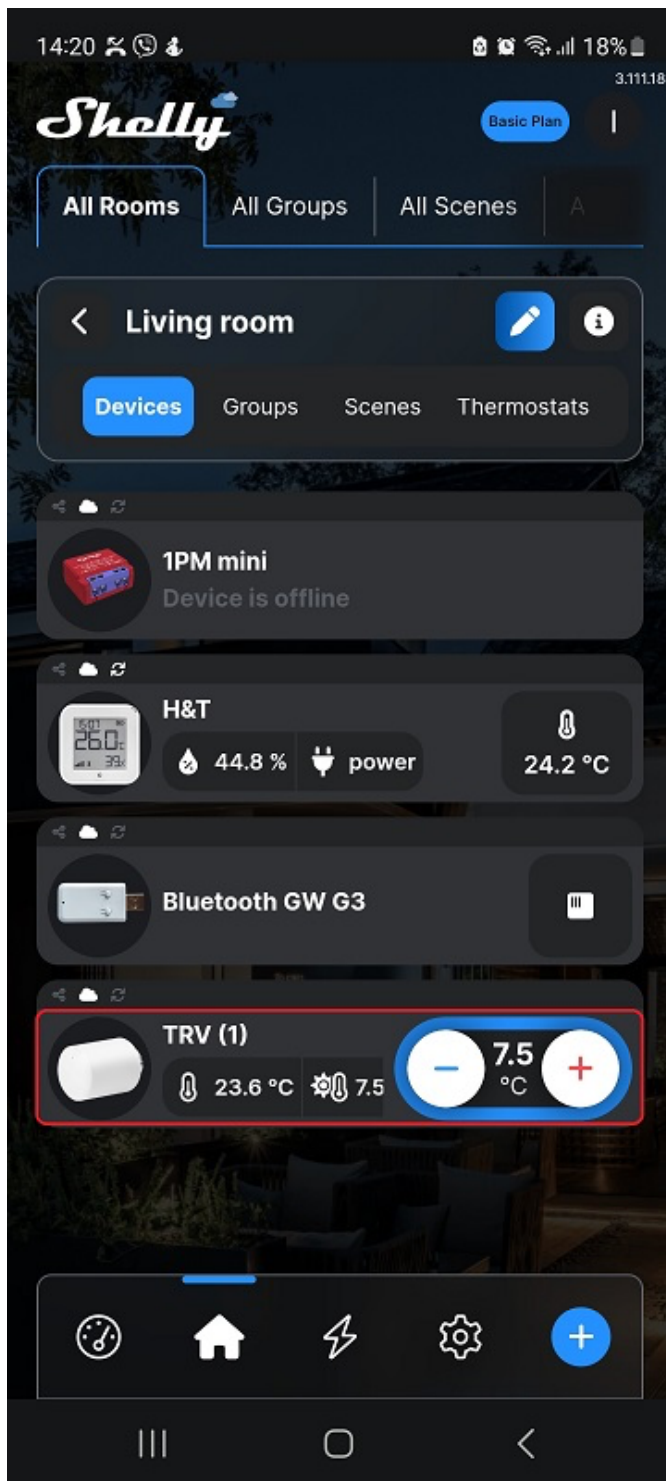

1. Press the **Reset** button on the Shelly BLU TRV. The display begins to flash bLE, indicating it is in pairing mode.
2. Press and hold the **Reset** button on the Shelly BLU H&T sensor for more than 10 seconds.

If pairing is successful, within maximum a minute, the Shelly BLU TRV display shows flashing confirmation YES

If pairing is not successful, the display shows no

To complete the process, bring the sensor closer to the Shelly Gateway Gen3, and then repeat steps 1 and 2.

3. To find the attached sensor in Shelly Smart Control, open the application and select Shelly BLU TRV from the device list.

4. From the left-side menu, select **Sensor settings** icon. The sensors are listed under the **Attached sensors** option.
